Local Corporations Showing Generosity and Support in the Face of Enormous Obstacles

REDWOOD CITY, CA. – CEOs, attorneys, doctors, bankers, programmers and engineers from the largest—and smallest—names in business are preparing to take tangible steps to help homeowners and community facilities in this time of need.

On Saturday, April 28, 2012, nearly 3,000 volunteers from corporations and service organizations around the Bay Area will heed the President's call to service by stepping out to renovate and rehabilitate homes and community facilities for neighbors in need throughout San Mateo and northern Santa Clara County.

Redwood Shores based Oracle will work with Rebuilding Together Peninsula to help ensure that neighbors in need can live in safety, warmth and independence during this challenging economic time by providing free repair services that would otherwise be unaffordable.

Oracle will co-ordinate 30 volunteers to help Gordon, a Navy veteran and Redwood City homeowner, rejuvenate his home by completing repairs and painting his house.

As part of Rebuilding Together Peninsula's National Rebuilding Day, this project will restore and revitalize not only Gordon's home in Redwood City, but community pride as well.

Please join Oracle volunteers, community leaders, other local corporations and Rebuilding Together Peninsula at this project on Saturday, April 28 at 8:00am, located at 3448 Bay Road, Redwood City, CA 94063.

About Rebuilding Together Peninsula: Rebuilding Together Peninsula builds volunteer partnerships to rehabilitate homes and community facilities for low-income people, the elderly, people with disabilities and families so they can live in warmth, safety and independence. Serving all of San Mateo and northern Santa Clara County, RTP is the largest organization on the Peninsula dedicated to preserving affordable housing and revitalizing communities. Each year, RTP works with thousands of volunteers to provide free home and roof repair services. In its 23-year history, RTP has restored over 1100 homes and 320 community facilities with the help of 79,000 volunteers with an estimated reconstruction value of \$33,245,000.
