

# ANNUAL REPORT

FY 2011-2012

# OUR LEADERSHIP

Virginia MacSuibhne  
PRESIDENT, BOARD OF DIRECTORS

Seana O'Shaughnessy  
EXECUTIVE DIRECTOR

“The connection between health and dwelling is one of the most important that exists.” Florence Nightingale

What do we mean when we talk about a “Safe and Healthy Home?” For us, it is not just an abstract concept or statistics. (Although the statistics are compelling. For example, in San Mateo County, easily preventable falls account for 80% of accidental injury deaths in individuals over 85.)

A safe and healthy home means installing laminate flooring and a furnace with a HEPA filter so that a 12-year-old girl with life-threatening asthma can leave the hospital and return home without fear. It means that a family no longer huddles around the oven to stay warm, an elderly woman can use her own bathroom instead of the McDonald's across the street, trip hazards are eliminated, handrails installed, mold removed, locks replaced, and fences repaired. **It means peace of mind.**

Rebuilding Together Peninsula's commitment to ensuring a safe and healthy home for everyone remains at the core of our work each April through National Rebuilding Day, but now we are tripling our impact through Safe at Home—our year-round minor home repair program. Through Safe at Home, we've increased the number of people we are able to serve as well as tackling simple repairs before they deteriorate into major problems.

Because of donors and volunteers like you, we are able to grow our programs, increase our impact, and focus on creative problem solving. Thank you for helping make our seniors and children safer and healthier in their own homes.

# SAFE AT HOME

*Thanks to you all, we are much more comfortable in our home, dreams that we thought were impossible came true and we will always remember your generous spirits.” - 2012 RECIPIENT*

When a bathroom leak caused water damage in their garage ceiling, Sheldon and Annabell B panicked. They had kept their Redwood City home in excellent condition, but in their retirement, they could no longer afford even minor repairs. Annabell felt her stress melt away after long-time Safe at Home volunteers arrived to help: “[The volunteers] stopped the leak from the bathroom. What a relief to know that the ceiling in the garage will not fall off and the whole floor will not keep getting damaged and rotten. The two volunteers who worked were excellent! Simply incredible!”

There is a large body of evidence (AARP, San Mateo County Health Briefs, Center for Healthy Housing, National Center for Injury Prevention and Control, etc.) which reveals multiple home repair hazards that pose significant risks to homeowners’ health and safety. These easily identifiable hazards add billions to health care costs and disproportionately affect low-income families living in older homes. Housing improvements and repairs – like the ones provided by our Safe at Home program, effectively reduce these risks and prevent unnecessary illness, disease, and death. There is a broad range of relatively simple measures that make high-risk homes healthier and safer. All homeowners deserve access to safe and healthy housing. Through Safe at Home, we are able to make this a reality for Sheldon and Annabell and countless others.

# MISSION

Rebuilding Together Peninsula builds volunteer partnerships to rehabilitate homes and community facilities for low-income homeowners and neighbors — seniors, people with disabilities, or families — so they can live independently in warmth and safety.

## National Rebuilding Day

National Rebuilding Day always occurs the last Saturday of April. It is the culmination of a year's worth of planning that brings together 2000 volunteers to rebuild and restore the homes of low-income homeowners and nonprofit community facilities. Our partners include corporations, service leagues, community agencies, foundations, volunteer groups, hospital districts, municipalities, and individual donors. From landscaping to complete renovations, NRD revitalizes communities and helps individuals live independently in warmth and safety.

## Team Build

Team Build offers community-minded corporations and service organizations opportunities for volunteer participation that are scheduled to meet the needs of the sponsoring group. Team Build days are at least six hours long and take place June through October. The projects are similar in scope to those undertaken on National Rebuilding Day. Each project fosters goodwill and cooperation while also providing much-needed repairs for low-income homeowners and nonprofit community facilities.

## Safe at Home

The Safe at Home Minor Home Repair program addresses the minor repair needs of homeowners before the needs become serious deferred maintenance issues. Homeowners who cannot afford even small home repairs receive help with minor plumbing and electrical work, debris removal, home accessibility, fire safety measures, window, door, and gate repair, and more. To be responsive to the health and safety needs of our community, staff members and small teams of skilled volunteers complete these minor repairs on a year-round basis.

# VISION

A safe and healthy home for every person.

## Raise The Roof

Rebuilding Together Peninsula is the only local agency that provides free roof repair and replacement services for low-income homeowners and nonprofit community facilities. Securing an adequate roof is critical to ongoing home and building maintenance. Since 1994, RTP has repaired or replaced 392 roofs. Our roof replacements average \$12,000 per roof. However, because of the support we receive from generous donors and roofers who contribute time and materials, we are able to do this work on average for half the actual cost.

## Healthy Housing Challenge

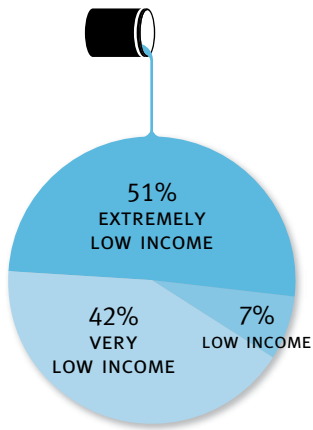

A new set of tools and training, called Healthy Housing Rehab and Repair, helps to prevent and reduce health and safety hazards in homes. This program will soon be implemented through the Healthy Housing Challenge, a joint venture of National Center for Healthy Housing and Rebuilding Together. RTP is one of the 50 Rebuilding Together affiliates across the nation to participate in the program. In doing so, the Healthy Housing Challenge will demonstrate practical ways to make our homes significantly healthier and safer, and begin to awaken Americans to the link between our homes and our health.

## Youth Assisting Seniors (YAS)

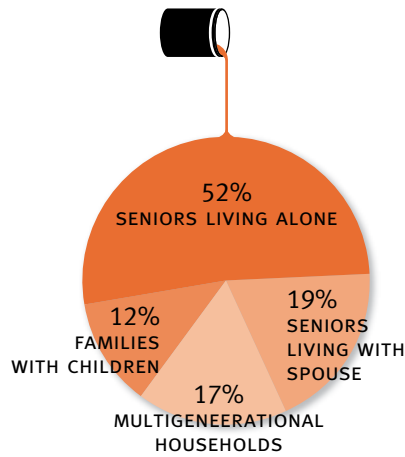

YAS is a designed to help low-income, elderly and disabled homeowners maintain the exterior of their homes through partnerships with local youth service organizations. The YAS program creates healthier, safer homes for seniors who are aging in place. The program reduces the chance of falls while also increasing accessibility for homeowners, healthcare professionals and emergency services personnel. Equally important, it encourages positive intergenerational experiences and fosters compassion.

\* 2011-2012 Audited Financials.

\*\* Dreams Happen is a bi-ennial fundraiser. This year, we utilized \$76,000 from last year's event.

# VOLUNTEER CAPTAINS

Volunteer Captains work closely with Construction Captains to recruit and organize the volunteer labor needed for their sites. Without their help in managing over 2000 volunteers annually, we would not be able to complete the number of projects we do. Volunteer Captains are critical to the work we do and we thank each and every one for their dedicated efforts and enthusiasm!

*“Thank you, thank you, thank you! Every person involved, every step it took to get it all done, all the decisions, the phone calls and emails, all of it was a pleasure and stress-free experience. This was a true blessing. So much was accomplished in such a short time, it was so well-organized, the captain was amazing. The staff are so helpful and they all were so patient. I can’t thank you all enough.” - 2012 RECIPIENT*

# BY THE NUMBERS

2,803

total volunteers contributed a total of

33,724

hours of time to RTP projects in 2012. of the

348

individuals living in homes repaired in 2012

94

were elderly,

74

were disabled, and

32

were families with children.

# WOLLENBERG AWARD

The Wollenberg Award is presented annually to those who provided extraordinary resources and leadership to Rebuilding Together Peninsula. The 2011-2012 award is proudly presented to South San Francisco Scavenger and Craig Prim

## South San Francisco Scavenger

South San Francisco Scavenger Company has been serving the community of South San Francisco since 1914. In its 99-year history, the company has been a huge advocate for the city and residents of South San Francisco. “We try to be a part of the community we serve,” said Doug Button, president of the company. “We work here, live here... you take care of where you work, live and breathe.”

In 1994, Rebuilding Together Peninsula worked on its first project in the city of South San Francisco and reached out to SSF Scavenger for help. SSF Scavenger was very responsive and donated a dumpster for the project site, and has been very generous in its support to RTP ever since. For the past 18 years, SSF Scavenger has donated approximately 45 dumpsters to the various sites in South San Francisco that RTP has served.

“When people in the community you serve need something, you just do it,” Doug said. “If you have healthy homes and homeowners, you have a healthy community – and we’re proud to be a part of that.”

RTP is very proud to partner with South San Francisco Scavenger Company to create happy and healthy communities. We are also proud to partner with Allied Waste Services Daly City for the past 12 years. Since 2001, Allied Waste Services has donated 50 dumpsters for various project sites in Daly City. Thank you to South San Francisco Scavenger Company and Allied Waste Services Daly City for their commitment to the communities they serve and to RTP’s mission. We couldn’t do it without you.

## Craig Prim

Craig Prim is not the average Rebuilding Together Peninsula volunteer. He is not someone who painted houses or built fences like so many others. For the past 14 years, Craig has supported RTP from behind-the-scenes helping as the organization’s financial adviser, ensuring RTP was always fiscally stable. Craig also served as a National Rebuilding Day runner for six years, running from project to project making sure every site had its supplies and materials. He has also helped at the last five Dreams Happen events, helping to set up and even sitting in as a proxy bidder. And 10 years ago, Craig persuaded Murray & Murray, the law firm he was a partner at, to sponsor a NRD project, which the firm has continued to do so since sponsoring that first home in 2002.

Craig first became familiar with RTP when his wife, Tracey, was involved in the organization as a board member and a Dreams Happen committee chair. He became interested in volunteering with RTP because of the organization’s mission to help others through volunteerism. “[RTP] is an organization doing great things in the local community mostly relying on volunteers,” Craig said. “You don’t really see that through other organizations.”

Craig feels the opportunity volunteers have to see first-hand how giving their time makes a difference in their community, is what makes National Rebuilding Day such a great day. “It’s the one day you can see you did tremendous good. It’s amazing how much work you can get done in one day...that changes the lives of people,” Craig said enthusiastically. “At the end of the day you feel like ‘I really did something good today’ and you just feel good about it.”

It is volunteers like Craig that make such a huge difference for RTP. Dabbling in a little of this and a little of that within the organization has truly made him a superstar volunteer, and an irreplaceable member of the RTP family.

# DONOR LISTINGS

Each and every one of you can be proud that your investment DOES make a difference! The following individuals, companies and foundations have invested in RTP from October 1, 2011, to September 30, 2012.

We apologize if we have made an error in spelling or omitting your name. Please call us 650.366.6597, ext 225 so that we can correct any mistakes and thank you in person!

Please pay special attention to our shining stars.

# IN-KIND DONOR LISTINGS

In-kind donors are crucial to the work of Rebuilding Together Peninsula. These donors complete essential repairs and donate materials to get the work done. Donations range from coffee and snacks for volunteers to a new roof or electrical service upgrade. These donations, small and large, enable us to make significant improvements on a shoestring budget. We apologize if we have made an error in spelling or omitting your name. Please call us 650.366.6597, ext 225 so that we can correct any mistakes and thank you in person!

## Community Builders:
